# GAMING THE SYSTEM_Narrative V2

## LEVEL 1 — ONE METRIC

### Level 1 – Screen 1 | The Mission

画面：周一上午 9:12。Maya 正在办公室准备上课，桌上突然出现一封标有 URGENT 的信。玩家点开信封，管理层邮件弹出。

Management email: “Student engagement is at an all-time low! Your mission: improve student engagement before the next evaluation. We need measurable results. Good luck!”

Maya: “Sounds simple enough. Let’s see what’s happening in my class.”

画面推进：点击 Visit Classroom，镜头切到教室。

### Level 1 – Screen 2 | The Classroom Disaster

画面：教室里一片散漫：有人睡觉，有人刷手机，还有人没做作业。玩家点击不同学生，听到他们的回应。最后，Alex 抬起头，认真问 Maya。

Sleeping student: “Wait... class has started already?”

Phone student: “Sorry, what was the question?”

Alex: “Professor, what exactly do we need to do to get a good score?”

Maya: “Engagement is about more than just getting a score, Alex.”

Alex: “Sure! But what exactly will you be measuring?”

Maya: “That’s actually a good question...”

画面推进：Maya 返回办公室，准备选择一个衡量课堂参与度的指标。

## Level 1 – Screen 3 | Choose One Metric

画面：白板上出现六张指标卡片：Pre-class Preparation、In-class Participation、On-task Focus、In-class Discussion Quality、Learning Reflection Quality、Online Peer Response Quality。玩家选择一张。

Maya: “I need a way to measure engagement. Which metric should I focus on?”

屏幕提问: “What do you think will happen when this metric becomes the main target?”

画面推进：玩家先写下一句预测，再点击 Run。屏幕上的数字快速上涨，切回教室查看结果。

## Level 1 – Screen 4 | The Unexpected Success

画面：所选指标变绿，Dashboard 弹出 TARGET ACHIEVED!。接下来只播放玩家所选指标对应的一条剧情。

### Branch 1 — Pre-class Preparation

画面：课前任务全部显示已完成。Alex 快速打完最后一个勾。

Alex: “I finished everything on the list!”

Maya: “What was the main idea in the reading?”

Alex: “Uh... I finished the checklist.”

### Branch 2 — In-class Participation

画面：课堂突然热闹起来。Alex 每道题都抢着举手。

Alex: “I agree! Same here!”

Maya: “Can you explain why?”

Alex: “I just wanted to participate.”

### Branch 3 — On-task Focus

画面：手机纷纷收起。Alex 端坐在电脑前，眼睛紧盯任务页面。

Alex: “Look, I stayed on task the whole time!”

Maya: “What did you discover?”

Alex: “I... kept the page open.”

### Branch 4 — In-class Discussion Quality

画面：讨论区气泡不断出现。Alex 拿着讨论句式卡片接连发言。

Alex: “Could you elaborate? I’d like to build on that.”

Maya: “What new idea came out of the discussion?”

Alex: “I followed the discussion checklist.”

### Branch 5 — Learning Reflection Quality

画面：Moodle 上出现大量结构工整的反思帖。Alex 熟练套用模板。

Alex: “Before, I thought... Now, I think...”

Maya: “What actually changed your mind?”

Alex: “That’s the format on the rubric.”

### Branch 6 — Online Peer Response Quality

画面：Moodle 评论接连获得绿色质量标记。Alex 一边回复，一边勾选评分要求。

Alex: “Specific suggestion? Check. Follow-up question? Check!”

Maya: “Did you really discuss their ideas?”

Alex: “I met every response criterion.”

共同结尾：无论哪条分支，Alex 都兴奋地说：“Professor! I figured out exactly what you were looking for!” Maya 看着上涨的数字，却有些迟疑。

### Level 1 – Screen 5 | Something Feels Wrong

画面：熟悉的信封再次出现。管理层表扬 Maya，Dashboard 一片绿色；Maya 却想起 Alex 刚才的回答。

Management email: “Great work, Maya! Student engagement has improved significantly!”

Maya: “The numbers look great... but something still feels wrong.”

Maya: “Maybe one metric is too narrow.”

画面推进：六张指标卡片重新浮现。屏幕提问：“What if we measured more than one?”

## LEVEL 2 — MORE METRICS

### Level 2 – Screen 1 | Choose Three Metrics

画面：Maya 决定不再只看一个指标。玩家从同样六张卡片中选出三个。Alex 在课桌上摆出一本新笔记本。

Maya: “One metric wasn’t enough. What if we tracked three? Which ones would you choose?”

Alex: “Three metrics now? Okay, I can handle that!”

画面推进：玩家点击 Run。三项指标依次变绿。

### Level 2 – Screen 2 | Three Metrics, Three Patterns

画面：根据玩家选择的三项，教室呈现不同面貌：如果偏向准备、参与、专注，教室看起来特别忙碌；如果偏向讨论、反思、回应，学生的表达显得很成熟；如果混合选择，课堂看起来更全面。无论哪种组合，Alex 都打开自己的三项 Checklist，逐条打勾。

Alex: “I’ve completed all three requirements!”

Maya: “And what about the other parts of your learning?”

Alex: “Other parts? Are those being graded too?”

Maya: “Maybe I’m still missing something...”

画面推进：Maya 决定把剩下的指标也纳入评价。

### Level 2 – Screen 3 | Cover the Gaps

画面：玩家点击 Add Remaining Metrics。六项指标全部变绿，Alex 展开一张长长的 Checklist，打上六个大勾。

Maya: “Now we’re measuring everything!”

Alex: “Six metrics, six green ticks! I’ve got everything covered!”

Maya: “But what did you actually learn?”

Alex: “Well... I learned exactly how to meet the criteria!”

Maya 无语。

### Level 2 – Screen 4 | The Perfect Checklist

画面：镜头在两个画面之间切换：左边是完美的 Dashboard，右边是认真研究评分要求的 Alex。Maya 望着两个画面，陷入思考。

Maya: “Maybe adding more metrics isn’t the answer...”

Maya: “What if some metrics mattered more than others?”

画面推进：三个空白 Priority Slots 出现。玩家点击 Set Priorities。

## LEVEL 3 — THE WEIGHTING TRAP

### Level 3 – Screen 1 | Choose Your Priorities

画面：Maya 重新摆出六张卡片。这次玩家自由选择其中三张，作为最重要的评价指标。

Maya: “Maybe it’s not about how many metrics we track. What if we give different metrics different weights?”

屏幕提问: “Which THREE metrics would you prioritize?”

画面推进：三张选中的卡片移入 Weighting Dashboard。

### Level 3 – Screen 2 | Set the Weights

画面：每张卡片下出现权重滑块。玩家为三个指标分配总计 100% 的权重，并逐项确认。

Maya: “Let’s see how changing the weights affects student behaviour.”

画面推进：点击 Run。镜头切回 Alex：他仔细看着新公布的评分比例。

### Level 3 – Screen 3 | Watch Alex Adapt

画面：Alex 根据三个指标的权重，连续展示三段不同强度的行为动画。低权重时只做基础要求；中权重时较认真地完成；高权重时格外积极，甚至有点夸张。以下是六个指标各自的三种故事表现，实际只播放玩家选中的三个。

#### Pre-class Preparation

Low：Alex 匆匆扫一眼阅读标题就关掉页面。 “I’ll just do the basics.”

Medium：Alex 阅读材料，完成课前任务。 “Okay, preparation done!”

High：Alex 提前到教室，桌上堆满笔记，逐项核对准备要求。 “I can’t miss a single preparation point!”

#### In-class Participation

Low：Alex 偶尔举手。 “I’ll speak if I have to.”

Medium：Alex 主动参与几次。 “I should contribute more.”

High：Alex 几乎每题都抢答，其他同学无奈地看着他。 “Me again! I have something to add!”

### On-task Focus

Low：Alex 时不时看手机。 “I’ll focus when needed.”

Medium：Alex 收起手机，认真做课堂任务。 “Stay focused. Got it.”

High：Alex 坐得笔直，眼睛死盯屏幕，头顶出现夸张的专注光环。 “Maximum focus!”

### In-class Discussion Quality

Low：Alex 点头附和。 “Yeah, that makes sense.”

Medium：Alex 提出问题，解释自己的观点。 “Can you explain your idea?”

High：Alex 拿出讨论句型卡，连续使用高分表达。 “I’d like to build on your point. Could you elaborate?”

### Learning Reflection Quality

Low：Alex 快速写两句并提交。 “That should be enough.”

Medium：Alex 写出完整反思。 “I learned something new today.”

High：Alex 对照 Rubric 逐条完善反思，页面弹出高分标记。 “Before, I thought... Now, I think...”

### Online Peer Response Quality

Low：Alex 留下简短评论。 “Nice work!”

Medium：Alex 阅读帖子并提出具体建议。 “Maybe you could add an example.”

High：Alex 同时打开多个 Moodle 帖子，逐项核对回复标准。 “Specific feedback? Check. Suggestion? Check!”

示例剧情：玩家选了 In-class Participation 70%、Learning Reflection Quality 20%、Pre-class Preparation 10%。Alex 在课前只扫了一眼材料，课堂上疯狂举手，下课后匆匆提交反思。

Maya: “Participation has improved a lot! But why is Alex barely preparing for class?”

Alex: “Participation is worth 70%. Preparation is only 10%!”

Maya: “So you’re deciding how much effort to put in based on the weights?”

Alex: “Of course! I want to get the best score!”

【特别说明：当三个权重接近均衡（最大值与最小值相差不超过 5 个百分点，包括 34/33/33）时，三段都呈现 Medium 状态；其他情况下，0–33% 为 Low，34–66% 为 Medium，67–100% 为 High。】

## Level 3 – Screen 4 | Rebalance the Weights

画面：Maya 看见 Alex 随权重改变行为，决定再试一次。若第一次权重不均衡，玩家尝试更均衡的分配；若第一次已均衡，则尝试制造明显差异。玩家保留相同三个指标，再次运行。

Maya: “Maybe I should balance the weights. Would that change how Alex learns?”

Alex: “Oh! So the priorities have changed again?”

画面推进：新的三段动画播放。如果还没有形成均衡对照，画面提供 34% / 33% / 33% 的尝试。

### Level 3 – Screen 5 | Compare the Patterns

画面：屏幕左右并排播放同样三个指标在两次权重设置下的 Alex：一边明显偏重某项，一边努力分配更均衡。

Maya: “Balancing the weights helped. Alex is spreading his effort more evenly now.”

Alex: “Exactly! I just follow the percentages!”

Maya: “But you’re still deciding what matters based on the scoring system...”

Alex: “Isn’t that what I’m supposed to do?”

Maya : “Maybe it’s not just about finding the perfect weights...”

画面推进：画面渐暗，三个 Level 的关键场景闪回。

## THEORY REVEAL

### Final Screen | Goodhart’s Law

画面： 以 Maya 的第一人称视角，屏幕依次闪回三个 Level 中 Alex 的典型行为：Level 1 中，Alex 努力满足单项指标；Level 2 中，Alex 逐一勾选六项 Checklist；Level 3 中，Alex 根据不同权重调整自己的学习投入。

随后，三个画面逐渐淡出，镜头回到 Maya 办公桌上的 Dashboard。六项指标全部显示绿色，但屏幕中央缓缓浮现一个问题：

“Are we improving learning, or just improving the numbers?”

画面渐暗，最终揭示 Goodhart’s Law。

“When a measure becomes a target, it ceases to be a good measure.”

画面推进：玩家点击 Go to Design Lab，故事结束。
